OMNAIA JOLIE

@_dr.artist_

Bio

Omnaia Jolie Abdou is famous for painting with pure, genuine 24k GOLD imported from Thailand. A type of gold that is rich in culture and tradition. Gold that has been used over the ages by kings and queens. Gold which holds more than a value, but spiritually.

Her Art is a fusion between realism and imagination. It combines traditional and modern techniques. Giving each piece a timeless and a unique feel. Each Piece is a layered creation and fusion of a CHEMICAL reaction and diamond dust. The multi-layer process gives these pieces a multidimensional and a polished look. Because of this, her work tends to capture light and reflects vibrant colors. The longer you look, the more you will find in the details.

Omnaia's pieces BREATHE & RADIATE life. She's constantly pushing the boundaries of imagery. Even the most minimal pieces embody a message to provoke a question, a feeling or wonder.
